

## Bangladesh Workplace Death Report 2021

The collage features several newspaper articles detailing workplace fatalities:

- 6 die inhaling toxic gas Jaipurhat septic tank**: Reports on a gas leak at a septic tank in Jaipurhat, resulting in six deaths.
- 2 workers die in septic tank**: Another report on workers dying in a septic tank.
- Rice mill worker dies in workplace**: A worker at a rice mill in Chuadanga was killed by a falling sack of rice.
- Lebukhali bridge worker rushed under trolley**: A worker was crushed by a trolley on a bridge in Lebukhali.
- শ্রীপুরের স্পিনিং মিলে অগ্নিকাণ্ডে নিহতের সংখ্যা বেড়ে ৬**: A fire at a spinning mill in Sripur resulted in six deaths.
- কুমিল্লায় নির্মাণাধীন ভবনের ছাদ ধসে নিহত ১, আহত ১০**: A construction site in Kumilla collapsed, killing one and injuring ten.
- ফুলবাড়িয়ায় পল্লী বিদ্যুৎ খুঁটিতে শ্রমিকের মৃত্যু**: A worker died at an electricity pole in Fulbaria.
- জগন্নাথ হলের ভবন থেকে পড়ে শ্রমিকের মৃত্যু**: A worker died from a fall from a building in Jagannath Hall.
- শিপইয়ার্ডের বার্জ বিস্ফোরণে শ্রমিক নিহত, আহত ৩**: An explosion at a shipyard killed one worker and injured three.
- চট্টগ্রামে লরির ধাক্কায় শ্রমিক নিহত**: A worker was killed by a truck in Chittagong.
- বরিশালে বিদ্যুৎ নির্মাণে শ্রমিকের মৃত্যু**: A worker died during electricity construction in Barisal.
- চট্টগ্রামে লরির ধাক্কায় শ্রমিক নিহত**: Another report of a worker killed by a truck in Chittagong.
- ফুলবাড়িয়ায় পল্লী বিদ্যুৎ খুঁটিতে শ্রমিকের মৃত্যু**: Another report of a worker dying at an electricity pole in Fulbaria.

Additional text includes a table with columns for 'সংবাদপত্র' (Newspaper), 'তারিখ' (Date), and 'বিবরণ' (Details), and a large red watermark that reads 'Bangladesh Worker Safety Programme'.

## Foreword

Safe workplace, a part of decent working conditions, is the basic human rights of a worker. Every human being works for his/her livelihoods and for a better and dignified life. Nothing is comparable against workplace safety. The reality is- in Bangladesh we are yet to reach a standard safety conditions in the workplace. Everyday workers are dying and the accumulated figure is highly alarming. SRS is keeping all the records of workplace accidents through monitoring national (15 newspapers) and regional (11 newspapers) newspapers, based on which this report is published for bringing the authentic picture before the stakeholders and actors so that a practicable strategy can be developed for reducing workplace accident. Bangladesh Workplace Death Report, 2021 is the 11<sup>th</sup> in the series.

The year 2021 was someway resembled to the year 2020 in terms of COVID 19 attack. Factories were shut down for weeks; workers were out of work specially who were involved in the informal sector. But the number of deaths did not reflect the same. It has increased than previous year.

According to the Bangladesh Labour Act- 2006 and subsequent rules- 2015, it is obligatory for the establishment authority to keep all the records of all sorts of accidents whether it is minor or major, which we rarely can find. Therefore, SRS can envision that this report will be the best source of information for future researchers, policy makers and activists who meticulously will be involved for minimizing the accidents result deaths or injuries.

We profoundly appreciate the support that Diakonia, a Sweden based development organisation, has been granting since 2012 to promote workplace safety and ensuring rights of workers in Bangladesh. Without their continuous support it may not be possible for SRS to publish this series of report for years.

We highly expect that the regulatory authorities and agencies which enforce the Act, Rules and Policies on labour, the media and other organizations who are working to improve workplace health and safety conditions in Bangladesh will find this report useful.

We know lots of accidents are out of our reach even today. We have a plan to extend our monitoring system to online based news and views so that we can cover more. As always, any comments or suggestions for further improvement of this report would be highly appreciated and acknowledged with gratitude.

Dhaka  
May 2022

Executive Director

# About Safety and Rights Society

Safety and Rights Society (SRS) is a national NGO concerned with improving workplace and work-related safety in Bangladesh and assisting those injured or at risk of injury, to enforce their rights under the law.

Though SRS has a particular focus on labour rights, it is also concerned with wider public safety issues involving transport, drugs, food and other consumer products as well as other wider human rights issues.

## **Workplace Safety, Compensation and Accountability**

The wider perspective of SRS is to promote labour rights in Bangladesh where Workplace Safety Compensation and Accountability (WSCA) is one of the main programmatic areas. From 2012, this programme has been supported by Diakonia, the development partner of SRS.

WSCA aims to improve the health and safety conditions faced by workers in Bangladesh and to ensure that, following a workplace death and injury, dependent families and injured workers receive appropriate compensation according to the law. Its focus is particularly on those in the country's 'industrial' and 'service' sectors.

It works to improve conditions by:

- undertaking research to obtain a better understanding of the occupational health and safety situation in Bangladesh, including the numbers and circumstances of deaths and injuries and the necessary changes in workplace practices;
- promoting the reform of health and safety legislation in Bangladesh so that it offers appropriate protection to workers;
- providing training on workplace health and safety and other labour rights issues to the construction, garment and tannery workers and mid-level management;
- assessing the activities of the Department of Inspection for Factories and Establishments and other regulatory bodies with the aim of seeking improvements in how they seek compliance with, and enforcement of the law;
- providing information and guidance to employers so that they understand their health and safety obligations and the steps they need to take to fulfill them;
- offering health and safety management training to employers;

- assisting trade unions in raising health and safety concerns with employers and enforcement bodies;
- filing strategic public interest litigation in the High Court of Bangladesh with the aim of ensuring that state bodies comply with their constitutional and legal requirements to provide workers with safe and healthy conditions at work;
- working to ensure the effectiveness of National Industrial Health and Safety Council and the implementation of National Occupational Health and Safety Policy;
- working to ensure gender equality and to reduce violence and harassment in the world of work;
- working to ensure the effectiveness of labour welfare fund.

It assists dependent families and injured workers gain compensation by

- monitoring national and regional newspapers for reports of workplace deaths;
- investigating the circumstances of workplace deaths & injuries and contacting dependents & injured workers to determine whether they need assistance for realising compensation;
- obtaining information about workplace injuries through research at hospitals;
- informing employers of their obligation to pay compensation in relation to specific deaths and injuries and filing cases in the Labour Court where necessary (together with BLAST).

# Workplace Death Analysis of 2021

## 1. Background

Year 2021 was 2<sup>nd</sup> year of the COVID- 19. This covid-19 pandemic badly affected the world economy. In our country the restrictions did not covered industrial sector. Construction workers doing their work in this time. Government and Nongovernment organizations were closed in this time. Many people have lost their jobs and income sources, resulting an increase in unemployment and poverty in both urban and rural areas throughout the country.

Keeping a record of workplace accidents that result in death and injury and publishing the report is one of the regular activities that SRS is doing very sincerely since its inception. One of the objectives of this survey is to accumulate the data in one place and share it to the public so that they can realize the practical conditions at the workplaces and raise their voice for a safe and decent workplace. This year, workers could not work for about five months from April to August due to various restrictions including lay off, but the number of deaths of workplace accidents has increased, it was 538.

As like previous years, a large number of workers died from road accidents (168). Other main causes of workplace deaths include electrocution, fall from a height, crushed or hit by objects, fire, earth collapse and building/roof/wall collapse, explosion, etc. Most of the national and international OSH (occupational safety and health) professionals believe that about ninety percent of workplace accidents could be avoided if the stakeholders become aware and take necessary precautions.

## 2. Methodology

This report provides details of workplace deaths that took place in Bangladesh in 2021 in the manufacturing, construction, service, agricultural and transport sectors and analyses the incidents by sector, cause, age and gender of the deceased, and location of the incident.

Information about the deaths was obtained by monitoring 15 national<sup>1</sup> newspapers and 11 regionals<sup>2</sup> papers of Barisal, Chittagong, Khulna, Rajshahi and Sylhet.

---

<sup>1</sup> National: The daily Star, The Independent, New Age, The Daily Sun, Ittefaq, ProthomAlo, KalerKantha, Samokal, Sangbad, Janakantha,

Jugantor, Nayadiganta, Inquilab, Jai Jai Din, BanikBarta

<sup>2</sup> Regional: Daily Azadi, Purbakon, Purbodesh, Sonali Sangbad, Sonar Desh, Sunshine, Purbaanchal, Janmobhumi, ShamoyerKhabor, SylheterDak, Shabuj Sylhet, Shahanama, Dhakshinanchal, Daily Paribartan

## **2.1 Kinds of deaths monitored**

This report focuses on the deaths of workers at the workplace, arising out of issues relating to occupational safety and health and concerned with the management of the work, including details of transport workers (drivers or conductors and helpers working in vehicles) who have died in the course of their work. However, the report does not include deaths of workers travelling to or from work by using public vehicles as these deaths primarily raise issues of road traffic safety rather than occupational health and safety. But any work-related travel by using an official vehicle is included.

The report also does not include deaths of workers as a result of police, or other kinds of violence or in incidents outside of the workplace – as none of these relate to occupational health and safety issues.

This report focuses on industrial and service sector deaths – but it does include details of certain agricultural deaths (where the newspaper reports clearly indicate a workplace safety issue). Very few agricultural sector deaths are reported in the newspapers and those are reported mainly died from lightning stroke.

Deaths at sea is another phenomenon where in most of the cases the newspaper publishes only the list of missing fisher folks – which makes it very difficult to know whether the incidents have anything to do with the management of health and safety issues. In addition, further press reports often fail to indicate the final conditions of the workers.

## **2.2 Accuracy of the Information**

The prime source of this information is from monitoring deaths that are reported in national and some regional newspapers. Relying on this data creates two problems. The first problem is that newspaper reports almost certainly do not reflect, by a high margin, the actual number of workplace deaths that have taken place.

The second problem concerns the accuracy of the newspaper reports themselves. To what extent, can we be sure that the correct facts about the deaths have been reported in the newspapers? During the reporting year (2021) we have investigated 69 incidents of which 24 are related to injuries (22 collected from CRP-Centre for the rehabilitation of the Paralyzed and 2 from other places) and 45 are related to deaths of those investigations we have found that a total of 102 workers died (among them 51 workers died in Shezan Juice factory incident) . Interestingly, that in the great majority of the cases, the key information contained in the papers was accurate. Though, it was usual for there to be some small errors in the spelling of the names of the deceased, the incident address and the circumstances of the death. It is rarely found that those deaths were not work-related or the location of the death could not be identified.

## **3. Analysis of workplace deaths in 2021**

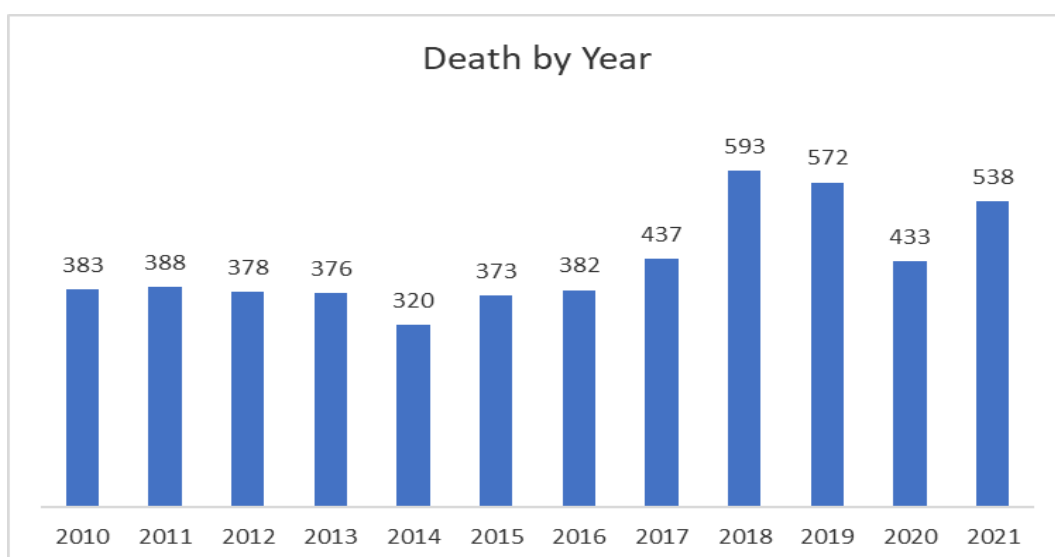

We have analyzed these deaths by looking at the following issues:

- The number of deaths and the number of separate incidents that resulted in the deaths;
- The district where the death took place;
- The sector in which the death took place;
- The sub-sector in which the death took place;
- The month of the year when the death took place;
- Age distribution of the workers who died;
- The gender dimension; and
- The causes of deaths.

The newspaper-based survey showed that in 2021 as many as 538 workers died in 399 workplace accidents. Compared with the previous year, 2020, the number increased about 106.

### 3.1 Workplace deaths by year

The bar chart shows the yearly death of workers, which depicted that the average number of deaths was about 640. These figures are likely to be a significant under-estimation of the actual numbers, since many workplace deaths are not reported in newspapers.

*Figure 01: Total number of deaths by year (2012-2021)<sup>3</sup>*

### 3.2 Workplace deaths in different Districts

The table describes the workplace death occurred in different district. In 2021, there were total 399 incidents in workplaces that resulted in 538 deaths, with the highest number of incidents (71) occurring in Dhaka that resulted 79 (14.68%) deaths; 40 (7.43%) died in

<sup>3</sup> In 2012, the number of deaths was 378 (excluding the 112 deaths caused by the Tazreen factory fire), and in 2013, 376 workers died (excluding the 1134 confirmed Rana Plaza deaths).

Chattogram from 37 incidents; 30 (5.08%) workers died in Gazipur from 26 incidents and 74 (4.85%) died in Narayanganj from 19 incidents. It is noteworthy that except for a very few, almost all the districts (61 districts) have one or more accidents that has resulted in one or more deaths of workers.

*Table 01: District-wise workplace accidents and deaths in 2021*

SL	Name of the Districts	# number of Incident	# of Deaths	%
1	Bagerhat	3	3	0.56

<b>Grand Total</b>		<b>399</b>	<b>538</b>	<b>100</b>

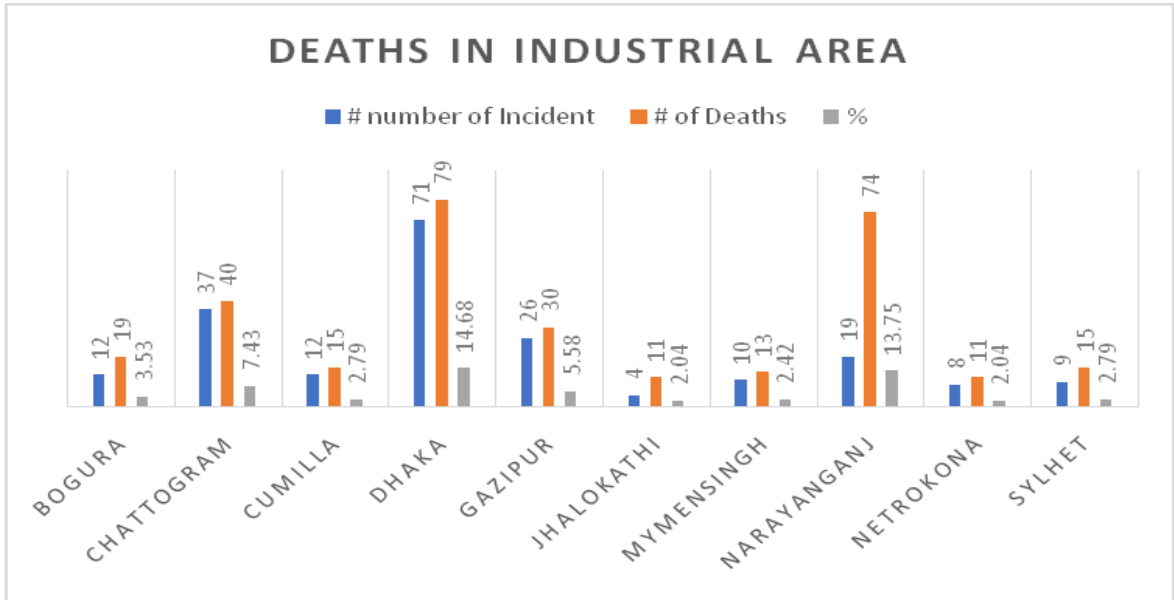

Figure 02: Deaths in different industrial areas of Bangladesh in 2021

The horizontal bar chart shows the significant number of accidents took place in Dhaka, Chattogram, Narayanganj, Gazipur, Mymensingh, Bogura, Cumilla, Netrokona, Rangpur and Jhalokathi were most prone to industrial accidents that caused more than 57.6 per cent of total deaths.

### 3.3 Deaths in different working sectors

The given bar chart illustrates the highest number of deaths occurred in the transport sector 150 (27.88%), followed by the construction sector 139 (25.84%), manufacturing sector 111 (20.63%), service sector 86 (15.99%) and agriculture sector 52 (9.67%).

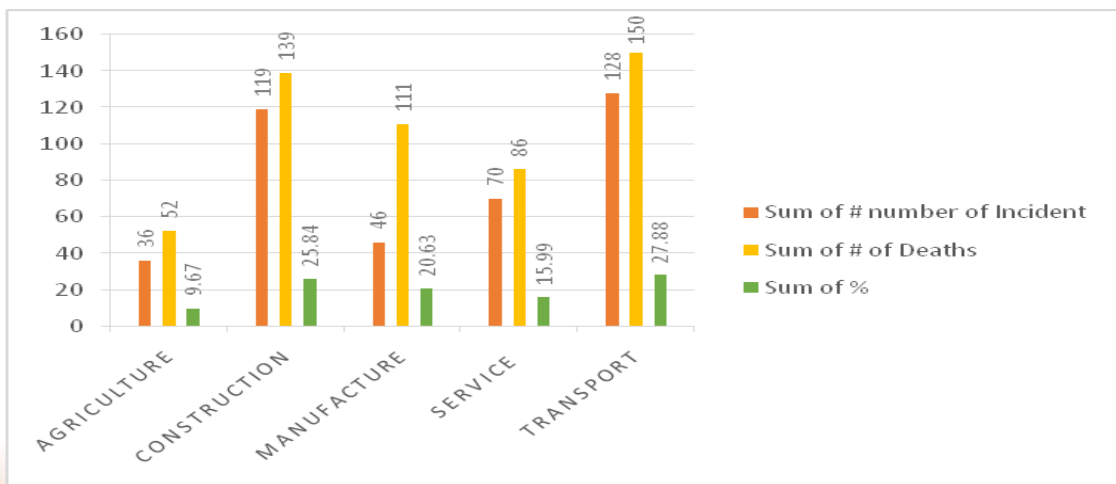

Figure 03: Deaths in different working sectors in 2021

### 3.3.1 Deaths in manufacturing sector

The given table describes in the manufacturing sector most deaths occurred in Food and beverages (52), followed by Garments (13) and Brick Field (08). Furthermore, Rice mills, shoes factories, steel mills and ship breaking/building caused major deaths.

SL	Manufacturing Sub-sectors	# number of Incident	# of Deaths
1	Agro Industry	1	2
2	Auto Industry	1	1
3	Brick field	6	8
4	Cement factory	2	2
5	Chemical Factory	1	3
6	Chocolate Factory	1	1

19	Steel Mill	4	4
20	Printing Factory	1	1
21	Unknown	1	1
<b>Total</b>		<b>46</b>	<b>111</b>

*Table 02: Deaths in different working Sub Sector of Manufacturing Sector in 2021*

### 3.3.2 Deaths in Construction sector

The table shows in the Construction Sector the significant deaths occurred in Building Construction 128, then relatively less in Road 07, and Bridge 04.

SL	Construction Sub-sectors	# number of Incident	# of Deaths
1	Bridge	4	4
2	Building	111	128
3	Road	4	7
<b>Total</b>		<b>119</b>	<b>139</b>

*Table 03: Deaths in different working Sub Sector of Construction Sector in 2021*

### 3.3.3 Deaths in Transport

Transports are the most vulnerable sector where accidents are quite high in numbers. Significant number of deaths (61) occurred by Dumper Truck/Jeep/Lorry/Truck/Covered Van. Moreover, 44 deaths occurred by Alom Sadhu/Auto Rickshaw/Easy Bike/Nasimon/Van/Human Hauler/Rickshaw, 40 deaths by Bus/Micro Bus/CNG/Private Car and 5 deaths by boat/ship.

Transport Sub-sectors	Alom Sadhu/Auto Rickshaw/Easy Bike/Nasimon/Van/Human Hauler/Rickshaw	Boat/Ship	Bus/Micro Bus/CNG/Private Car	Dumper Truck/Jeep/Lorry/Truck/Covered Van	Total
# of Incident	41	3	33	51	128
# of Deaths	44	5	40	61	150

*Table 04: Deaths in different working Sub Sector of Transport Sector in 2021*

### 3.3.4 Deaths in Service

In service, a significant number of day laborers died in accidents, the number of deaths was 44 occurred by 33 incidents. Other remarkable service providers were electricians or who were involved in electric supply or polly biddyut works (20).

Service Sub-sectors	Mechanic/AC Mechanic/Cable Network/Workshop	Day Labourer	Domestic Worker/ Night Gourd/Security Gourd	Electric shop/Electric Supply/ Polli Bidut/Electrician/Power House	Boat/Launce/Oil Tanker/Ship	Restaurant/Shop	Stone Query	Total
# number of Incident	6	33	5	17	4	4	1	<b>70</b>
# of Deaths	6	44	6	20	5	4	1	<b>86</b>

*Table 05: Deaths in different working Sub Sector of Service Sector in 2021*

### 3.3.5 Deaths in Agriculture

In agriculture, significant deaths took place in paddy fields, the number of deaths was 31 occurred by 22 incidents. Other remarkable agricultural sub-sectors are Fishing/Fisheries where 10 deaths occurred in 5 incidents.

Agriculture Sub-sectors	Fishing	Crop Field	Paddy Field	Jute Field	Vegetable Field	Total
# of Incident	5	7	22	1	1	36
# of Deaths	10	8	31	2	1	52

*Table 06: Deaths in different working Sub Sector of Agriculture Sector in 2021*

### 3.4 Causes of death in Working Sectors

In 2021, the highest number of deaths occurred in road crashes (156), followed by electrocution (82), burnt in fire (72), fall from height (58), lightning (49), crushed by object (32), Suffocation (30), explosion that includes boiler, gas cylinder, AC, etc. (23) and drown in water (9). In Agriculture lightning strikes were the main cause of deaths, in construction and service it was electrocution, in manufacturing it was crushed by objects and in transport it was road crashes.

Sectors	Burnt in fire/hot water	Lightning	Electrocution	Crushed by Object	Fall from height	Poisonous gas/Suffocation	Wall/Mud/Stair/Roof /Earth collapse	Drown in water	Cylinder/Boiler Explosion	Road Accident	Total
Agriculture	-	49	2	1	-	-	-	-	-	-	52
Construction	-	-	38	8	49	25	15	-	1	3	139
Manufacture	70	-	11	11	3	-	9	-	6	1	111
Service	1	-	30	11	5	5	3	6	13	12	86
Transport	1	-	1	1	1	-	-	3	3	140	150
Grand total	72	49	82	32	58	30	27	9	23	156	538

*Table 07: Causes of death in different Working Sectors in 2021*

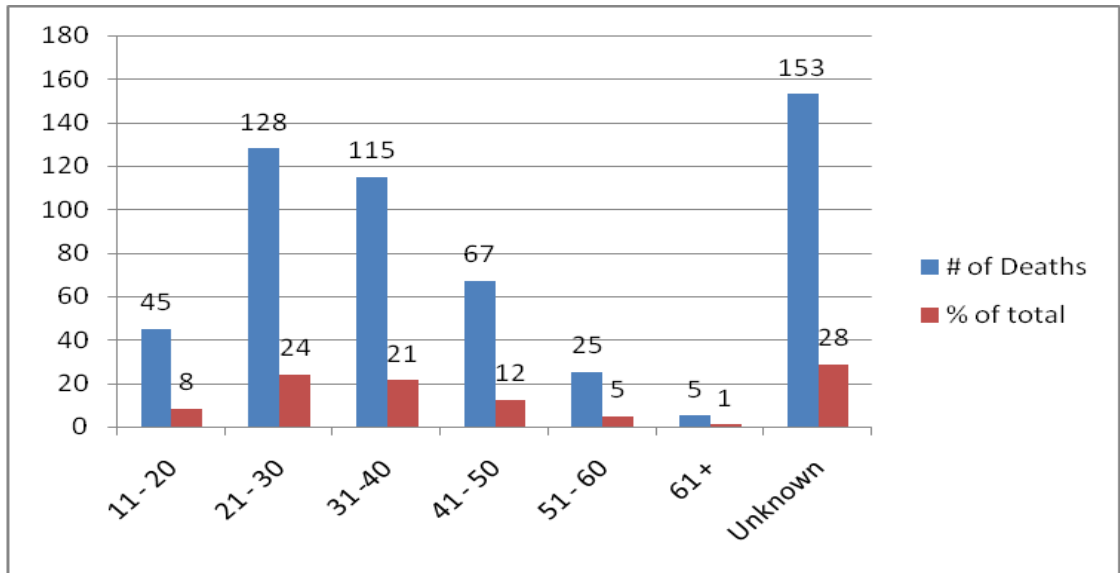

Fire incidents in the workplace are very common; Bangladesh had observed some terrible fire incidents in the previous few years. In the last ten years (2012 to 2021), 606 workers died at workplaces by fire. Most of the deaths occurred in the manufacturing sector (538 out of 606), especially in RMG and plastic factories. Highest numbers of workers died in 2012 where 167 workers died including Tazreen fire victims. 92 workers died in 2013. Then 63 workers died in the year of 2016, 18 workers in 2017, 11 workers in 2018, Some 67 workers died in 2019, 18 workers died in 2020 and 72 workers died in 2021.

Working Sector	Year										
	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	Total
Construction	-	-	-	7	-	1	-	-	-	-	8
Manufacture	162	90	46	33	63	16	7	39	12	70	538
Service	5	2	6	7	1	1	4	26	6	1	59
Transport	-	-	-	-	-	-	-	-	-	1	1
<b>Total</b>	<b>167</b>	<b>92</b>	<b>52</b>	<b>47</b>	<b>63</b>	<b>18</b>	<b>11</b>	<b>67</b>	<b>18</b>	<b>72</b>	<b>606</b>

*Table 7.1: Deaths in workplaces caused by Fire in last ten years from 2012 to 2021*

### 3.5 Deaths by Age

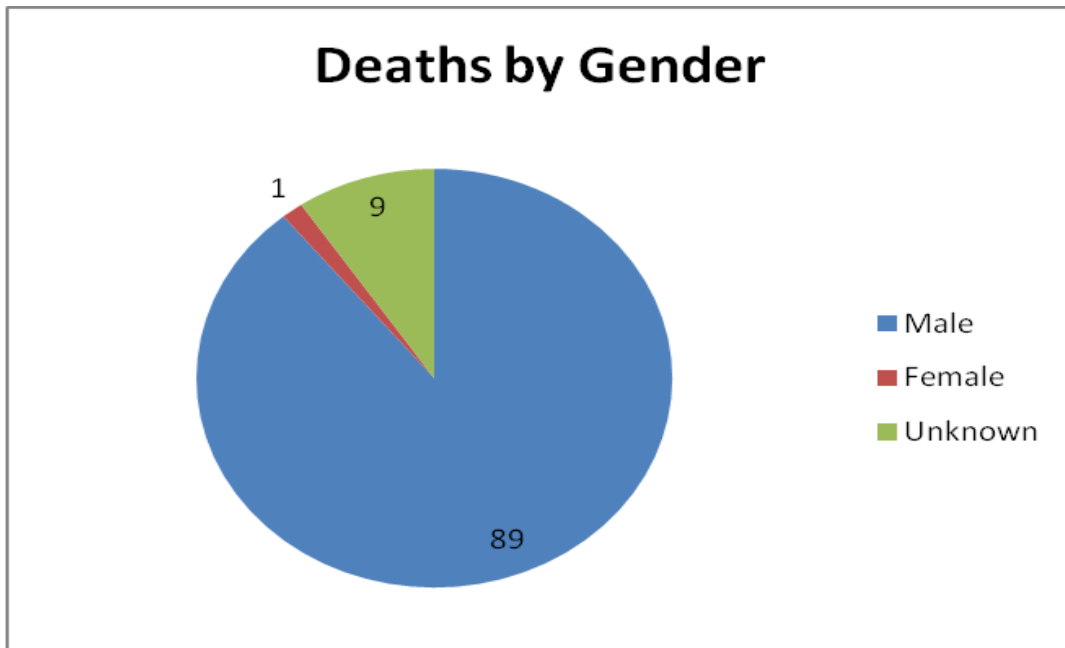

Data shows that a significant number of the deceased's age could not be identified which is 153 (28%), then between the ages of 21 to 30 years 128 (24%). In the 31 to 40 years age group total number is 115 (21%), 92 (28%). 45 (8%) workers died whose age was 20 or less and 30 (6%) workers died whose age greater than 60.

*Figure 04: Age of the deceased in 2021*

### 3.6 Deaths by Gender

It is noteworthy that almost all the workers were male (89%), only 1 percent was female who died in workplace accident.

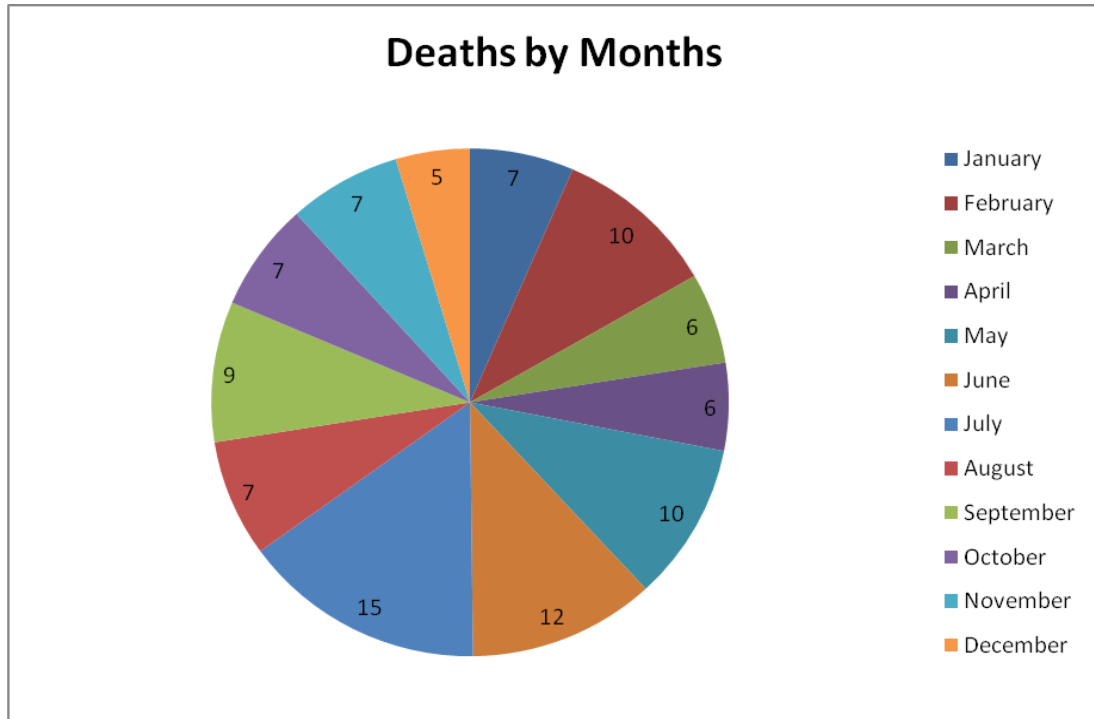

*Figure 05: Gender of the deceased in 2021*

### 3.7 Deaths in different Months of 2021

The highest number of deaths in the workplace occurred in July, 82 workers (15% of total), then in June, 63 workers (12% of total death), 55 workers (10% of total death) in February, in May it was 54, in September it was 48, in August 40, in November 38. The

lowest number of deaths in the workplace occurred in December 25 (about to 5%). Most of the deaths occurred in the 3rd quarter of the year (July – September) with 167 (31%) deaths and the least number of deaths occurred in the 4th quarter of the year, 100 deaths (19%).

*Figure 06: Deaths by Month in 2021*

## Summary of Findings

The number of workplace deaths was 538 in the year of 2021.

- Total (89%) of the deceased were male workers.
- The highest number of deaths involved workers aged between 21 and 30; 128 (24%), which is common for every year.
